

A NEW PERSPECTIVE ON COLLABORATION IN THE CLOUD

PRE-TRIAL CASE ANALYSIS FROM A SECURE, PRIVATE-CLOUD WORKSPACE

LATITUDE TO HARNESS THE EVIDENCE FROM ANYWHERE

OPUS|2
MAGNUM

INNOVATED BY GRAHAM SMITH-BERNAL, CREATOR OF THE NO. 1 MOST WIDELY-USED LITIGATION SUPPORT SOFTWARE

1st Online War Room & Whiteboard for Documents, Transcripts & Research

Opus 2 Magnum™ is a dynamic, private cloud-based service from which litigators, co-counsel, and experts review evidence and collaborate on work product for motions practice, depositions practice, and witness preparation.

ALL EVIDENCE AND TEAM INPUT UNITED WITHIN ONE SIMPLE WORKSPACE

Team insights and work product are no longer at the mercy of cumbersome binder updates, couriers and scattered email dialogs. Opus 2 Magnum nurtures the team's collective analysis of the evidence with the finesse, reverence and security it warrants.

Authorized team members gain mobile access to an online war room that is furnished with the latest content, as well as an online whiteboard that captures the team's continual interpretation of the relationships among documents, testimony, and research.

Case managers from Opus 2 International create and host every Magnum workspace so that you may focus entirely on the strategy for the case.

WHERE THE MASTERMINDS OF THE CASE MASTER THE EVIDENCE

Opus 2 Magnum is the chess board where every move is measured and vital, and where the substantive practice of litigation takes place. It is where thorough analysis illuminates the path to a successful outcome, and where your legal argument becomes a masterpiece.

While eDiscovery software works to separate "the chaff" from the collection, Opus 2 Magnum works in parallel as a centralized forum for analyzing "the wheat" and shaping the legal argument at key milestones of litigation—whether you settle, arbitrate, or go to trial.

Opus 2 Magnum adds value at every stage of litigation, but many clients adopt it during the discovery phase to prepare questioning strategies revolving around the hot documents that are produced during eDiscovery.

KEY BENEFITS

- Reduce costs and time
- Convenient, mobile access
- Centralize all team input
- Scale to cases of any size
- Always the latest version
- No duplicative or lost work
- No bulky binders
- No software installs

MASTERMIND

Cogitate key discovery documents, testimony, exhibits, facts, research, and collective team insight to chart and adapt the strategy.

“Finally, exactly what I need to prepare, without relying on countless binders and c: drive storage.”

OPUS 2 MAGNUM PRESENTS A SIMPLE, SEAMLESS AND SECURE VENUE TO HOST EVIDENCE FOR THE TEAM AND FOSTER COLLABORATION.

MOBILITY & COLLABORATION BOOST EFFICIENCY AND EFFECTIVENESS

Whereas other case analysis tools are complicated by licensing, upgrades and firewalls, Opus 2 Magnum is cloud-based, month-to-month, and always the latest content and tools for your case.

SECURE ONLINE WORKSPACE

A secure Opus 2 Magnum workspace is wrapped around the master set of key documents, linked exhibits, pleadings, declarations, and transcripts at its core. The workspace provides a fully featured team forum so that your notes, issues, correlations, private documents and research can be made visible to the authorized members of the workspace.

COMPLETE MARK-UP TOOLS

Team members review content to validate testimony, pinpoint contradictions, and determine how statements relate to other testimony or documents. One simply highlights any text to tag it, apply color-coded issues, add notes, or create hyperlinks to other passages.

BUILT-IN OPTIONS TO SHARE FINDINGS

Users can share revelations and notes with any other users or groups of users with the click of a button. They will receive a simple e-mail alert that contains a direct link to the note so they may login from anywhere, review the remarks, and continue the discussion thread within Opus 2 Magnum.

KEY FEATURES

- Access cases from any PC, Mac, tablet or smartphone with an Internet connection.
- View documents as they appear on paper; add highlights, underlines and margin notes.
- Create links among selected passages of any documents, transcripts and research.
- Preview the targets of any hyperlink within the split screen panels.
- Create custom folders of subsets of content by issue, witness, date, and more.
- Send notifications via email to individuals or to custom discussion groups to alert them to an important annotation.
- Engage the team in dynamic discussion threads on key passages.
- Generate color-coded reports of work product to save, export, email or print.
- Pinpoint every time an exhibit has been marked throughout the life of the case.
- Perform targeted searches with Boolean, proximity and fuzzy search techniques.
- Hibernate or archive the case at any time.

Getting Started is Clear as Day

AS EASY AS EMAIL

Opus 2 Magnum is just as easy to use as your online email account. The simple "Magnum Toolbox" window functions in the same way across all documents, transcripts, and research in the case so that anyone can become an intermediate-level user within just a few minutes of training.

- Highlight and color-code passages.
- Tag excerpts with issues.
- Add margin notes.
- Cross-link to any other excerpts.
- Save work product.
- Share work product with team members.
- Send email notifications to team members.

TURN-KEY WORKSPACES

Seasoned case managers from Opus 2 International create and host every Magnum workspace so that our clients may focus entirely on evaluating the evidence and developing the strategy right away. We can activate your Opus 2 Magnum workspace within 24 hours and begin populating it with the master set of court reporting deliverables and other litigation content. Our specialists liaise with your litigation support staff to properly transfer documents and metadata from any disclosure or document management platform. We will preserve your desired folder structure, exhibit naming scheme, and Bates or trial exhibit numbers, and create hyperlinks among transcripts and exhibits. Opus 2 Magnum is turn-key and ready for use, and as the case progresses, users can upload additional content to the private team forum. ■

LEFT: A STYLIZED REPRESENTATION OF HOW THE SINGLE "MAGNUM TOOLBOX" SCREEN FUNCTIONS IN THE SAME MANNER ACROSS ALL TRANSCRIPTS, RESEARCH AND DOCUMENTS IN THE WORKSPACE.

OPUS 2 INTERNATIONAL

Opus 2 International Limited was founded in 2008 by Graham Smith-Bernal, the entrepreneur who created LiveNote® and helped it to become the most widely-used litigation support software of any kind prior to selling the company to Thomson Reuters in 2006. Following a brief retirement to his estate in Umbria, Italy, Smith-Bernal returned to the market to conceive his second great work, Opus 2, which has garnered worldwide media coverage for its new approach to litigation services for attorneys, mediators, arbitrators and judges. Today, the company delivers its flagship Magnum service as well as sophisticated court reporting services to the largest and most complex litigations in the world, including the largest private litigation in 2011. Opus 2 International has offices in London (Headquarters), San Francisco, Dubai, Paris and Hong Kong.
