

OPUS 2 MAGNUM CLIENT TESTIMONIALS

“I thought Magnum was excellent, especially for my role in the case—senior partner catching up before trial. It was great to review the key documents, transcripts and trial exhibits and be able to absorb my team’s comments.” - Stuart Gasner, Senior Partner, Kecker & Van Nest LLP

“Having recently become involved in a multi-party case at a critical juncture, our team has benefited greatly from Opus 2 Magnum as a way to collaborate on key documents with fellow senior litigators at 2 other firms allowing us to catch-up on the case in record time. The Magnum platform has helped us to meet intense deadlines and to quickly and thoroughly prepare for imminent depositions.”

- Lance Coburn, ShareHolder, Greenberg Traurig LLP

“Magnum is the future for document heavy litigation. It has saved literally hundreds of thousands of pages of printing.” - Lucinda Orr, Litigation Associate, Skadden Arps Slate Meagher & Flom LLP

“It’s actually automating so much of the work that the lawyers would normally spend hours to achieve. There is no question that it makes lengthy hearings more manageable, but its simplicity makes Magnum a highly useful tool on all cases – irrespective of size.” - Mark Hastings, Partner, Addleshaw Goddard LLP

“There were also a number of other features which significantly contributed to the smooth running of the trial. Perhaps most importantly, the extensive documentation was presented in a highly organised and easily accessible electronic format... There can be no doubt that this enabled the trial to be concluded within the allotted timetable, and with the maximum efficiency.” - Mrs. Justice Gloster, Head of the UK Commercial Court, referencing the use of Magnum in her judgment on *Berezovsky v Abramovich*
